Gaithersburg, MD - August 9th, 2012 – TW Perry (www.twperry.com), one of the leading suppliers of building materials in the Mid-Atlantic region for over 100 years, will be carrying GreenSorb on the shelves at their five locations in Maryland and Northern Virginia. As a Certified Green Dealer and member of several green building supplier initiatives, GreenSorb compliments the many commitments TW Perry has made to educate its commercial contracting clients regarding sustainable building techniques, products and supplies.

Mike Moore, VP Materials Management said, “TW Perry prides itself on looking for innovative yet proven products. GreenSorb fits that profile with a product line that has both lab tested and field proven results. TW Perry's varied customer base of remodeling contractors, custom home builders and institutional accounts will find a wide range of uses for GreenSorb. We will recommend GreenSorb to all of our customers for its eco-friendly attributes and product performance”.

With retail locations in Leesburg and Springfield, Virginia, and Gaithersburg, Chevy Chase and Baltimore, Maryland, the company combines the best in offering lumber and building supplies to contractors with vibrant general retail hardware sales at each store. GreenSorb will be stocked in the cleaning supplies section of each store, and introduced to walk-in customers through weekly product demonstrations by GreenSorb representatives at all TW Perry locations.

“Growing up in the mid-Atlantic area with my father using TW Perry materials for his building needs it is an honor and pleasure to have GreenSorb on their shelves” says Charlie Muldoon, VP Business Development for GreenSorb.com.

GreenSorb products are eco-friendly, multi-purpose absorbents designed for numerous industry applications. The all-natural, non-caustic and reusable product has been approved by the EPA for disposal in public landfills, and is seven times more absorbent than most competing products. GreenSorb is made in the USA by Sorbent Green LLC.
